

702 CASE STUDY.

FONTERRA HEAD OFFICE, AUCKLAND WYNYARD QUARTER.

FONTERRA HEAD OFFICE.

Fonterra Head Office was designed on Auckland's Wynyard Quarter. The head office was designed by Jasmax and collaboration from GreenAir. The building has a 5 star Green Base Build rating and a 6 Green Star Interior Design rating. In this building the designers included an energy efficient thermal envelope and a building services design which includes an all electric heating system (to reduce carbon emissions), a water conservation system – using rainwater harvesting, and solar hot water heating.

GreenAir worked with architects and interior designers at Jasmax. The brief required a multi-storey internal green wall, internal large areas of landscaped gardens and, interior plantscapes for spaces ranging from the café on the public floor level, to the Fonterra Innovation Hub, reception, and refreshment hubs.

FONTERRA HEAD OFFICE.

Fonterra Head Office is an award-winning interior which is enhanced by the stunning green wall and plantscape features which all add up to be a harmonious blend of man-made elements and the natural greenery of over 2,000 plants.

The green wall rises through the seven floor levels of the buildings core, in a self-contained staggered watertight capsules, that all connect together for irrigation and drainage.

The plant palette of this interior living wall is mainly made up of green toned plants which are suited to indoor conditions, however, there are a few red undertones under some foliage.
